

Ist ITALIAN VAS CHAPTER *of Vascular Access Society*

Coordinator:
Daniele Savio

Turin | 16-17 november 2018

1st ITALIAN VAS CHAPTER

of Vascular Access Society

RATIONALE

The Italian VAS Chapter, founded in 2017 within VAS (Vascular Access Society), will organize in November 2018 its first course about vascular accesses in Turin: the purpose is to gather all the different figures involved in this delicate task for dialysis patient in Italy.

According to VAS bylaw, main objective of the course will be culture spread and knowledge on dialysis vascular accesses among nephrologists, interventional radiologists, vascular surgeons and nurses to debate a common interdisciplinary way to face problems and complications in this field.

Special attention will be devoted to the recent of technology advances available to operators.

VAS Course Highlights

- *Update on graft, stentgraft and DEB option*
- *Endovascular and surgical rescue for failing access*
- *Central venous stenosis diagnosis and treatment*
- *Central venous catheter complications*

1st ITALIAN VAS CHAPTER

of Vascular Access Society

16 NOV AFTERNOON

12,30 - 14.30 LUNCH SYMPOSIUM

14,40 Opening Remarks
G. Forneris, M. Gallieni, F. Nessi, D. Savio.

14,45 Lecture - Vascular access guidelines 2017: highlights from Spain
J. Ibeas

INTERVENTIONAL RADIOLOGIST'S ACTUAL AND FUTURE TOOLS

Moderatori: N. Tessitore, P. Fonio

15,05 Use of contrast media in renal failure
U. Rossi

15,20 How High resolution sonography will change vascular mapping
I. Petrucci, M. Meola

15,35 Which stenosis, which treatment
D. Savio

15,50 High pressure, cutting and scoring balloon: indications and limits
C. Hohl

16,05 DEB overview
P. Kitrou

16,20 Stent graft: state of art
D. Savio

16,35 **COFFEE BREAK**

RESCUE TREATMENT

Moderatori: A. Rampoldi, M. Tozzi

16,50 Difficult and difficulties in distal access

N. Pirozzi

17,05 Why I use stentgraft in the distal AVF: preliminary experience

P. Quaretti

17,20 Rescue Fav - Endoluminal By-pass

T. Stefanini

17,35 Discussion of clinical cases

A. Pecchio, D. Savio

18,30 **CONCLUSION**

17 NOV MORNING

9,00 Lecture: Heart and AVF

M. Gallieni

SURGERY VS ENDOVASCULAR

Moderatori: P. Bourquelot, N. Pirozzi

9,25 Sutureless venous anastomosis for vascular access. Indications, techniques and outcomes

A. Agostinucci

9,40 Early cannulation in lower limb

D. B. Kingsmore

9,55 Extreme vascular access with AVG

M. Tozzi

10,10 Endovascular treatment of thrombosed AVFs

S. Comelli

10,25 Aneurysm when and how to treat

H. Mistry

10,40 Looking for a smart vascular access: the Silkothane alternative

S. Riboldi

10,55 Endovascular AVF creation

C. L. Mariani

11,10

COFFEE BREAK

TUNNELED CATHETERS PROBLEMS AND SOLUTIONS

Moderatori: M. Menegolo, P. Quaretti

11,25

Revascularization in central vein occlusion

R. Kasthuri

11,40

The fibrin sleeve revisited

F. Galli

11,55

Diagnostic path in TCVC disfunction

C. Lomonte

12,10

Removal techniques for stuck catheters

L. Moramarco, I. Fiorina

12,25

Stuck catheter: the real world

G. Forneris

12,40

A new method for TCVC jugular rescue insertion

M. Cariati

12,55

Discussion of clinical cases

13,15

CME TEST AND CONCLUSIONS
